Ideas Ready for Promotion

Ideas that might be ready to move to Active Projects based on completeness and stakeholder engagement (this is entirely speculative)

Project (9)	Stakeholder Count	SAMR Level
Institutional Analytics - Data Integration and CQI Dashboard	13	redefinition
Assessment - Clinical Documentation Grading System	9	augmentation
Student Support - AI Tutoring and Research Platform	8	redefinition
Assessment - Question Enhancement and Generation Platform	7	augmentation

Project (9)	Stakeholder Count	SAMR Level
Curriculum Mapping - Content Alignment System	7	modification
Precision Medical Education	7	redefinition
Admissions - Complete Analytics Platform	6	modification, transformation
Research - Medical Education Research Gaps	5	modification
Learning Objectives Enhancement System	4	augmentation

Foundation Reference

The portfolio is built upon the foundation document: [0-Foundation-ideas](#), which serves as the original seed from which all current projects have been developed.

This dashboard automatically updates as projects are added, modified, or moved between Ideas and Active status. All data is pulled directly from project files using their YAML frontmatter tags.
